Simple Installation to Bed

With the knee pad...

● Slip off prevention

Knee is positioned on the pad and can prevent bended knee

● Stabilizes sitting upright

At 45 degrees angle, knees are fixed and falling off can be prevented

● Easy stand up

By pressing the knee onto the pad and pull the arm, the hip can be lifted easily and you can stand up with a little force

● Stable stand

Standing position is more stable since it supports the body at 3 positions; arms, knee and leg
